

Tennessee Bureau of Workers' Compensation (TNBWC) EDI Claims Release 3.1 Announcement

**Update on TNBWC EDI Claims Release 3.1 Trading Partner Readiness Webinar on**

**March 25, 2020**

March 31, 2020

The Tennessee Bureau of Workers' Compensation's EDI Support Team experienced technical audio problems during the recent EDI R3.1 webinar we attempted to host on Wednesday, March 25, 2020. We regret that you were unable to hear the presenters and thank you for your understanding. We have been unable to determine the source of the issue but believe that it may be related to the unprecedented number of people using web meeting programs throughout the country currently.

Rather than rescheduling a live session, we have decided to record the presentation and make it available for viewing at your convenience. A link to the recorded presentation, a PDF version of the slides, and R3.1 FAQs will be available on Wednesday, April 1, 2020 on the TNBWC's EDI website at <https://tnbwcedi.info/training>.

If you have any questions, please contact the TNBWC EDI Support Team at [tnbwcedi@iso.com](mailto:tnbwcedi@iso.com). If your questions are specific to the Information Session, please put "Info Session Question" in the subject line of your email. We ask that all questions please be submitted on or before April 15, 2020. We will update the FAQ document with your questions and send an announcement when it has been updated.

Thank you,

Tennessee Bureau of Workers' Compensation's EDI Support Team
